

Bio-Diversity Policy

Preamble

Jindal Steel & Power Limited (hereinafter referred to as 'JSPL, or 'The Company'), supports biodiversity conservation through our values, performance, engagement, and communication and shall strive to identify and implement appropriate actions within our company and work with our stakeholders.

Purpose

Business and societal activities can adversely affect habitats and endanger biodiversity. The purpose of the policy is to conserve, enhance and restore biodiversity through biodiversity management practices. This policy provides guidelines for including biodiversity in our strategic and operational decision-making process.

Scope

This Bio-diversity policy outlines JSPL's overarching approach to biodiversity management and it applies to all the operations within the limits established by the law.

Policy Statement

We at JSPL shall endeavor to:

- Maintain legal compliance with biodiversity-related laws and regulations
- Assess risks to biodiversity and associated ecosystem services from existing and planned operations
- Strive for no net loss of biodiversity at our operated or owned sites having biodiversity risks
- Monitor, review, and assess biodiversity performance against measurable biodiversity targets to drive continuous improvement, and openly communicate the results
- Identify, engage, and collaborate with key stakeholders to integrate their knowledge, perceptions, and guidance to ensure inclusive biodiversity management
- Implement the mitigation hierarchy by avoiding, minimizing, restoring, and if necessary offsetting residual impacts on biodiversity
- Avoid operational activities in close proximity to World Heritage and ECO Sensitive areas.
