*Dear Readers,*

A Fanzine is a non-professional publication produced by Enthusiasts and My MSP team is blessed with que sera-sera temperament. This is an endeavour to provide wings to all literary possibilities to our students. I am Gung-ho about this first publication and Hope same for all of you. Special kudos to Maya mam and her team for this compilation and expect the flow of such initiatives..

*With great delight*  
**Dr. IMRAN PERWAIZ**

My favorite teacher is **Supriya ma'am**.

She is our science and calligraphy teacher. She has zeal to teach the students with happiness. She completes her syllabus on time and explains practically and tries to clear our doubts. She takes us to labs and also explains about the reactions of chemicals and the functions of other bones in our body. She also teaches how to write the words in calligraphy. She also makes some projects to make us understand the topic. I like Supriya ma'am for her teaching skills and I would like to wish that Supriya ma'am will teach us till class 8<sup>th</sup> and I have the faith that in future I will be a successful student.

**Ananya Mohapatra**

**Class –VI B**

My favorite teacher is **Soma Ma'am**

When Soma mam enters the class room, she dispels darkness and brings brightness into the class room. She changes the class environment from turbulence to peace.

Our Soma mam deals with full of fun and happiness which makes me comfortable inside the class. She is very knowledgeable and able to clear all my doubts.

Soma mam is a teacher who supports and encourages us in both academic and sports. I feel grateful to be a student of OPJS and with the blessings and guidance of teachers like Soma mam I look forward to become an ideal student of the school.

"I like a teacher who gives me something to take home to think about, besides homework".

The teacher I like the most is **Mrs Sudha Ojha**. This is because she is very kind and loving to all students and makes learning fun and interesting with her explanations and experiments. She always uses practical problems of daily life to clarify the concepts of science. She patiently listens to the questions of every student without any partiality. I feel lucky to have her as my teacher and I truly love and adore her from the bottom of my heart.

## FANTABULOUS 6A

A classroom is the soul of every student. It can be named as a second home as most of my time I spend here with my lovely children. Apart from some memorable days, some decent things make my class a decent one. As the students of my class are energetic and engaging, when I walk into my class room every day, I feel like I have entered a new World, the 'Most Captivating Area', filled with insightful things, educational materials and list of achievers waiting eagerly to greet me as a 'GUIDE' to shape their future. I feel proud to express that the fondness of these moments will remain unchanged in my heart forever.

## Class Teacher 6B

I am happy with my class , they all are very talented and cooperative and hard working. Even if they do mistake they realize it and take my scolding in a positive way Students like Sagnik achieved bronze medal in competitive exams - silver zone Olympiad,( English) makes our class proud and honour . We hope more students will also turn up in upcoming years to go . I am glad as well as proud to get such a resonance class. They can achieve success with flying colours, they all have the potential to cross all hurdles in their life. They feel that.. I am the best , a Good education can change anyone but a good class teacher can change everything.

**AN IDEAL TEACHER (SHAKTI PRASANNA)** : A teacher is the one, who helps us build the base of our future. There are many great teachers in my school, but every student has especially at least one teacher whom they are grateful to. As such, my favourite teacher is Mr. Shakti Prasanna Sir. He teaches us Social Science and has a really attractive personality. He is very friendly in nature. He not only focuses on studies, but also counsels us to take part in other activities like reading, general knowledge, art, painting and writing. According to him, we should not remain limited just to the books, instead we should understand that Knowledge is infinite and we can acquire knowledge from any sources anywhere. As I read different books written by different authors on different topics and share the same with him, he appreciates me and encourages me to read even more books. He is not only kind to me, but equally humble and supportive to other students as well. For me, he is the epitome of knowledge. He says that everyone has knowledge, we just need to extract it from them. He is also an epigrammist and by far a knowledgeable person. He is so great that even the words fall short to praise him. He is truly an inspiration to all of us.

‘मेरे ये अनम

‘मेरे ये अनमोल रतन ’

सुबह होते ही न जाने क्यों मुझे इनकी याद आती है।

कितने मीठे सुर में अब आयुषी भी गा लेती है ।

साईयाशा अगर कहीं दूर भी खड़ी हो तो,

ये उसके पास चली जाती है ।

दिशा, विदिशा और तनीषा अकसर पानी ले आती हैं ।

अनन्या, अनुष्का की जैसी कोई नहीं यहाँ ।

होमवर्क करके ही सो पाती हैं।

सुकीर्ति, अरात्रिका को कौन नहीं जानता इन्हें हमेशा याद रखो ।

करो खूब परिश्रम और फिर सफलता का स्वाद चखो ।

अपर्णा, आद्या शांत बैठती हैं कभी न शोर मचाती हैं ।

दिव्यश्री और प्रांजल तो सबको समझाती रहती हैं।

सात्विका हंसमुख और सात्विक भावों से परिपूर्ण हैं ।

प्रियांशु, अर्णव की बात ना करें तो

मेरी कक्षा ही अपूर्ण है।

अथर्व और अभिलाष पाल तो बड़े ही होशियार हैं ।

दुश्मनों के दुश्मन हैं ये और यारों के यार हैं।

हरओम,ओमप्रकाश,अंशुमान और सार्थक ये चार हैं।

चुपचाप और शांत बैठते जैसे जुड़े दिल के तार हैं।

यशराय,अनुरिम,अंश और आयुष के सायकिल ही कार हैं ।

एक बार से मन नहीं भरता जब चलाते बार बार हैं।

अर्श, अमन,और शुभांशु मेहनत करते नहीं थकते हैं ।

करमवीर को कर्मलीन देख सूरज और ज्योतिप्रकाश मुस्काते हैं ।

बजती है जब टिन- टिन घंटी हर्षित होकर हर्षित भैया घर को चले जाते हैं।

चिड़ियों की तरह उड़ने की शिक्षा दी,  
उन्होंने हमें सच्ची मानवता सिखाई।  
कलम की धड़कन से जीवन को रंग दिया,

## MY ROLE MODEL

My favourite teacher, Mr Imran Parwez, is an inspiration of mine that helps me studying my subjects with a great concentration. The main power that Sir has is he makes us study in a funnier way and also make that particular topic settle in our mind for a long period of time. I am proud that I have a teacher who teaches us great things And Support Us Very Much.

### MY FAVOURITE TEACHER

I like all my teachers but **Soma Sarkar** madam is my favourite among all. She teaches us English. I love her teaching style. She explains the subject in a very easy way. She is kind and loving to all the students. She is disciplined and punctual. She encourages us to study well. She teaches us good habits and moral values. I pray to God to bless her with wealth, health and prosperity. I am very proud of my teacher.

A music teacher is a professional with knowledge and understanding of different kinds of ragas, tunes, sargam & musical instruments and their incorporation during performance and making their students to learn the same from the base in the music class. Music is one of our subjects in the school curriculum. **Anusuya mam** is our music teacher. She finds out the mistakes while singing and corrects it. She gives notes for learning. She plays harmonium while singing. She has also made a choir group of our class. When we get an opportunity to participate in a music competition she informs us to participate in the competition. I like her because she motivates & guides us properly and corrects our mistakes to learn & understand the music.

My favourite teacher

**Braja Mohan Sir** is my favourite teacher. He is a librarian. He has a smiling face. He is truthful, honest, polite and friendly. He is a punctual and disciplined teacher. He gives full attention to each and every student. He tells us interesting stories from time to time. He held many activities for us. Braja Mohan sir is a great person who motivates us to do well in our studies regularly. He never gets angry when we make mistakes. He tries to solve all our queries. He teaches us good habits and values. He is nation builder. Such ideal teachers are the pride of a nation.

## **A Heartfelt Appreciation for Braja Mohan sir**

In the heart of our beloved library, there's a shining star, a guiding light, and a true champion of knowledge - Braja Mohan sir. Today, we take a moment to express our deep appreciation for the incredible work he does and the positive impact he has on our lives.

Braja Mohan is not just a librarian but a source of inspiration and wisdom. He always greets us with a warm smile, and her enthusiasm for books and learning is infectious. His dedication to helping us find the perfect book or navigate the sea of information is unwavering.

He goes the extra mile to make our library experience special. Whether it's organizing engaging events, recommending hidden literary gems, or creating a welcoming and nurturing environment for all, Braja Mohan is at the forefront of enriching our lives.

Braja Mohan sir is a guardian of our literary heritage, ensuring that the stories and knowledge within these walls are accessible for generations to come. His commitment to preserving the past while fostering the dreams of the future is truly commendable.

**Dear Raja Sir,**

I know we met a little later than most, but it feels like it's been a lifetime. There are never going to be enough words to express how thankful I am for everything you have done, though. Thank you for the countless hours you've spent working with me. Thank you for providing me with all the tough love I could ever ask for. Thank you inspiring, helping, and motivating me to achieve things I never thought possible. Thank you for providing me with a homely atmosphere beside You. You have taught me so much that I will never forget. You've taught me that it's okay to fail and fail again, and if something isn't working there's another solution. You've taught me to be patient, to know that the greatest victories come only after the toughest battles. You've shown me how to be a leader; to aspire to inspire always and to never give up on people. You've taught me to demand respect. Even when I was unsure and unconfident, you taught me how to demand the respect of my peers and everyone around me. Last but certainly not least, you've taught me that blood does not define family. In the time that we've known each other you've become family to me, and you've shown me that dancers truly are family. You have welcomed me with open arms and even when I leave you, that bond will remain. Please don't ever think that I don't need you. You have made one of the greatest impacts on my life and there will always be a time when I need a kick in the butt or a helping hand. You are a big reason as to why I do what I do, and you have touched not only myself but all your students in a special way. Again, thanks for giving me a true inspiration to reach at the destiny. You will be my favourite always.

Ramakrishna Tripathi Sir, a name we revere,  
In the world of literature, he truly shines clear.  
With words and verses, he wove stories so grand  
His pen danced with wisdom, like an artist's hand.

In the realm of imagination, he took flight,  
Creating worlds and characters, full of light.  
His prose, a river of emotions that flowed,  
Through pages and chapters, his tales bestowed.

With every line, a new adventure unfurled,  
A storyteller, poet, he rocked the literary world.

Victory belongs to the most persevering and most determined. Potential, Performance and Progress are three prominent hallmarks of the achievers who accept the forthcoming challenges with strong audacity and will power. Needless to say, spectacular achievement is mostly preceded by unspectacular preparation and at times the outcome is stonking to everyone's dismay. Forging ahead with

co-scholastic perspectives and innate potential the whizkids of 7A set their milestones taking part in a plethora of inter-house activities coming in series. Beginning with the grand pageant and youth conference MUN:2023, Class 7A under the guidance and supervision of teachers and Head effervescently stepped into the arena of competitions and registered their success story in a host of exciting athletic and cultural events conducted on the school premises and brought laurels to their class as well as the institution. Emphasis was always laid on promoting cognitive, aesthetic, moral, cultural and social values and aptitude in the learners and as such they meted out a perceptible share of their responsibilities as Deputy Head Boy, Wing Prefect switching from the position of class monitors, discipline monitors and language monitors. They never failed in making their assembly presentations exemplary, besides their academic performance. Galvanized into action, students of 7A always aimed at building up their multidisciplinary life skills, character, discipline, human values, leadership, collaboration, creativity, teamwork, patriotism, cultural ethos, sense of belongingness and exposure to civic and democratic norms experienced in real life. Thus with a steady march with their individual potential, students always strove to put up their best with all splendour and flamboyance.

### " PARTICIPATION IS THE LESSON OF OLYMPICS"

As the saying goes, undoubtedly students of my class 7B try to participate in different events organized by the school to the best of their capacity. It is rightly said that education is the backbone of an individual who try to prepare themselves for future growth and holistic development in the way they try to build themselves in extracurricular activities and academic excellence.

Participation in the grand program like MUN ( Model United Nations), sports, yoga and taekwondo not only speaks about there showcase in academic field but also to build up the body is health as " Sound mind exists in a sound body ". Events which are held at our school that is O.P. JINDAL SCHOOL, ANGUL under the guidance, supervision and leadership of MSP Head, physical education teacher, class teacher and co-coordinator truly speaks about their sole interest taken in the said competitions which has taken place in the first half of the session 2023-24. Etiquettes, behavior and discipline are highly appreciated by the subject teachers taking classes in my class . Remarks has been made by them that students are trying to perform well and be an example for others making the school and family proud .

I, Arun Prasad Saini as a class teacher of class- 7 B hereby confer that the students of my class are in the substantial process of growth both academically, holistically and developing their personality to meet the challenges they are going to face in future world.

Number 7 is unique in a broader sense as major religions attach their significance with this number. In Christianity it is believed that God created the universe in six days and took rest on the Seventh day. Class 7C is blend of 32 students with 16 Boys and 16 girls. There is gender parity in class 7C. Their characteristics also differ from every other class.

My favourite teacher is my social science teacher Mrs. **Madhuchhanda Pattanaik**. She lives in Angul. She is my best teacher and liked by all my friends as she teaches very well. All are interested in her class as she makes some fun also. I like her strategies of teaching in the class. She asks us to go through the topic for the next day at home. She also asks questions about the same topic on the next day. In this way, we understand the chapter very easily. She takes test after teaching two or three topics. She loves her teaching profession and teaches us with all enthusiasm and passion.

You are a great teacher for me,  
All along a great motivator for me.  
We like you ma'am, as you like us.  
We like to help you and you train us.  
We eagerly learn from you  
when you teach;  
We like your skill and knowledge as we reach.  
You're dear to me and all, **Supriya Ma'am!**  
With all awful stresses you remain so calm.

### Impact of my Favourite Teacher on my Life

M.S.Meher sir is not just a great teacher but also an ideal person for me. He has all the qualities to be my favourite teacher, and it's needless to say that everyone loves him. I am lucky to be his student, and I will always follow his principle in my life. Even after leaving this school, he will remain my favourite teacher, and I will never forget him. He is that teacher who cares us a lot and teaches using easy ways and methods. He never takes study to be very serious and teaches us with entertaining activities. Some qualities of a good teacher include skills in communication, listening, collaboration, adaptability, empathy and patience which I see in him everytime.

When I think of my elementary and middle school memories in my home, there is one teacher who reflects in my mind and he is my favourite English teacher **Dr Mohan Sundar Meher**. He is such a teacher who positively affected my attitude not only towards English but my education in general. Furthermore, while I was in his class I felt more confident in my English abilities. To harp on the same string, the way he teaches us makes English seem possible. He isn't only the best teacher in the world but a great friend for us. He is the kind of teacher whom you could talk to for advice. He is a great, attentive listener. He always pointed me in the right directions for my future. On the whole, Meher sir love all of his students, and never do partiality with any of us. I am not blaming the other teachers that they are not good to me, by the way I am just expressing my heart for my favourite teacher.

I have immense respect and best wishes for him. All the efforts and hard work he has put into bringing out the best in us can never be repaid in mere words. Sir, we can only be grateful to you to have a teacher like you!

'A calm teacher is like a candle - it consumes itself to light the way for others'.

Teaching has always been considered as a noble profession. A teacher never looks for their own success and endeavor, they always have their students' present and future in mind. When one chooses to be an educator it is understood that a number of qualities are personified in that individual.

**Maya mam** is my favorite teacher. She teaches computers to us. She always helps me with my doubts and she never gets angry even if I ask her any doubt more than once. She is very friendly and approachable and many of my classmates also consider her their favorite teacher. I really enjoy her classes and she pays attention to each and every student in our class. She teaches in a very interactive and creative way. Her classes are very interesting. Morally she tries to make us feel and realize the real power and ethics of artificial intelligence, and its benefits that can be served to our nation.

She as an IT educationalist plays a essential role in the life of each and every student in view of today's upcoming need. She is always a source of inspiration for me and for her we are the children who follow the footsteps of their teachers. For us Maya mam is like a treasure that has to be cherished and valued.

### My Favourite Teacher **D.S.Shailly Sir**

He's been my favourite teacher since last year, when he started teaching us. He is very strict and disciplined. He gives effort on the regularity and beauty of the work we submit to him, especially on our handwriting on which he keeps reminding us to make it beautiful and legible. He even encourages every student to answer the questions in the class, even if it's wrong. Everyone, according to him, should express their views and understanding of the class. Last year, when he started teaching us, I was not so good in the subject as now I can see the improvement and that too by a lot. Some other aspects why he's my favourite is that he is funny as well as strict at the same time. This makes me reckon him as my favourite teacher.

### My School Experience since Day One

My school journey began with mixed feelings. On the positive side, I was excited to make new friends, learn new things, and discover the world of knowledge. The first day was filled with anticipation, meeting teachers who seemed caring, and classmates who appeared friendly. This made me look forward to the days ahead. I made many new friends on the 1<sup>st</sup> day of my school and some of those friends are still there with me now. I like my school the most because the school teaches us in the most prominent way; here the teachers are also very dedicated and remain focused on studies of the students and every time they keep motivating us. Other than studies, we have many co curricular activities, Olympiads and multidisciplinary activities including life skills. Our school also trained us how to handle and counter natural disasters like Earth Quake and outbreak of fire. Our school updates us with our life skills. I will say that I am so lucky that I have got an admission in this school. As the days passed, I started to enjoy my school more. I learned the subjects that fascinated me. I found teachers who were supportive and helping me overcome my fears. However, there are also some other aspects. The school seemed to be big and overwhelming, which made me a bit nervous. Additionally, some subjects were challenging, and I feared not understanding them. Many experienced and well- trained teachers are leaving the school, I don't know the reason, but it affects in our studies, After pandemic when we came to school came school with all excitement, we saw that many benches are broken, lights and fans were out of order, and till now it has been not completely repaired. But now the school is working on it and already 80 to 90 percent of the things has been repaired. To conclude, I experienced many ups and downs in my school career. It speculate it was all a journey of growth where I faced challenges and also sensed joy in learning and value of friendship. The positive experiences outweighed all my negatives, associating my school day experiences a valuable part of my life.

### My Favourite Teacher **K.Mohanta Sir**

My favourite teacher happens to be the sir who teaches us Arts and Crafts. Although we barely get to have Art class as it happens on a Saturday and most Saturdays are holidays or public holidays, I still enjoy the times we do get to go to the Art class and learn a new way of shading, line-work, style and even more. He's the supervising teacher in my bus and he has to be the most laid-back teacher, in my opinion. He's not that strict but he does take action and put his foot down when needed or in serious situations. During the classes that we get once every blue moon and is only for 40 minutes, he finds a way to give attention to every student whether they are not very skilled or are indeed very skilled and gives them advice on how to improve and even identifies their mistakes. With his teaching I have learned how to shade in different methods, proper understanding of human anatomy and even how to work with different materials (like oil pastels, crayons, pencils, etc.). As I have an interest in drawing and graphic design, I try to implement all that I have learned from him in my work. Because of his teaching, I manage to get compliments on my work by many people. Some people even say I should take Fine Arts, Graphic Design or even Practical Arts as my majors when I'm in college or university and this shows all my appreciation and devotedness for my teacher.

**Abigail Dungdung, VIII C**

#### Mr. Rajkumar Nahak Sir : My Favourite Dance Teacher

Dance is the language that dancers use to move, think and respond. A dance teacher helps his students to find the song in heart, in their feet and passion for life. I love dance and I always keep moving my body, my head and also enjoy any song very much. When the music starts, I can't stop myself in dancing or enjoying. This happens only because of my respectable sir, Mr. Raj Kumar Nahak. He has a role model in teaching many different styles of dance to students. On the other hand, he is also a choreographer the school has ever appointed. His name only specifies that he is the 'Son of a King' (Raj Kumar). He gave me wings and made me stronger to face the spotlight. I would assert that behind every dancer who believes in themselves is a dance teacher who believed in himself first. No matter how one interpretes my opinion. As dance competition is organised every year, it is he who encourages us to participate in the event with aplomb and understanding that competition is merely one aspect of dance training. He teaches us to value dance as an art form, not a sport.

**Niharika Nayak, VIII C**

#### Arun Prasad Saini Sir: My Favourite Teacher

Mr. Arun Prasad Saini is a king of Physics kingdom. I am grateful to him for being so patient with me and for never giving up me. He was a true MVP. He is the best teacher a kid could ask for. I appreciate him for the inspiring and encouraging lesson that made learning really a fun and exciting. He is a role model for me, and I am so thankful to him for his guidance that gives better knowledge and understanding. He empowers is and a source of never-ending knowledge of physics. We all know how complicated the subject is but he made it very interesting while teaching which gives us better understanding. He is ready to help us at any moment. I will say, he is the teacher of incredible knowledge, who guides us on the path of our success.

**Anmol Varma, 8C**

Great teachers empathize with kids, respect them and believe that each one has something special that can be built upon. Teachers are a special blessing from God to us. A teacher teaches us the importance of a pen over that of sword. They are like the building blocks of society who educate people and make them better human beings. They play a vital role in creating a strong foundation of basic knowledge, not only regarding the subjects but also for life.

There are so many great teachers in our school and everyone has their individual identity. **Dr. Imran Perwaiz** is my favourite teacher. He teaches us Sanskrit and has a really attractive personality. He is very polite and humble and we all students love him. He is also a person trusted the most by parents and teachers, as he constantly strives in creating a balanced environment in working hard at academics and having fun. His way of teaching is excellent. He tells us interesting stories from time to time. He believes in simple living and high thinking. He perfectly justifies the balance between study and extracurricular activities to go hand in hand.

He is an asset to our school as he has played a massive role in improving the overall image of our school including co-curricular and academic aspects and we students are fortunate to have Imran sir as our teacher.

Dear class 8C Superstars

I want to take a moment to express my heartfelt appreciation for each and every one of you. Your dedication to learning and your resilience in the face of challenges have not gone unnoticed. Remember that your efforts, big or small, contribute to your personal growth and the success of our entire learning community. Embrace each opportunity as a chance to discover and develop your unique strengths. You are capable of achieving greatness, and I believe in your potential. Keep pushing your boundaries, stay curious, and never underestimate the impact of your hard work. Thank you for being an integral part of our educational journey. Your enthusiasm and commitment make teaching truly rewarding.

Best regards,

**Class Teacher**

In school, there are teachers who make a big impact on students. For us, our Class teacher (**Pawanpreet Kaur**) Ma'am is one of those special educators. She's not just a teacher; she's like a mentor, a helper, and someone who's really kind and understanding. She's not just about teaching us facts, but she also helps us in many other ways. Her influence goes beyond just school stuff, and she really understands how we feel. She is incredibly kind. She's really good at understanding how we feel and what drives us. She never judges us quickly; instead, she listens, cares, and helps us through tough times. When she's with us, we feel important, heard, and respected. She's like a guardian to us, looking out for us if we're honest about our mistakes. She is also our Social Studies teacher, who teaches us Social Studies in a really interesting way. It's not just about facts; it's about how it applies to the real world. She encourages us to think, ask questions, and understand the subject better. When we fail, she lifts us up with her encouragement. Her support is like a breath of fresh air, helping us keep going. She believes in us, even when we make mistakes, and that pushes us to do our best. It is not uncommon for conflicts and misunderstandings to arise among students in our class. In such moments, she takes the lead and understand the whole matter and resolve it without hurting anyone. We're really lucky to have a great teacher who helps us grow in both our minds and hearts every day.

In the world of equations and algebraic mysteries, one name shines brightly, **Lilly Mam**, our math teacher. With unwavering enthusiasm and a passion for numbers, she's managed to make math more than just formulas; it's an exciting adventure. Her patient explanations and innovative teaching methods have transformed our struggles into successes. She've shown us that math is more than just numbers; it's a language of understanding the world around us. The dedication and commitment she bring to the classroom is truly inspiring. As we navigate through the complexities of algebra and geometry, it's her guidance that lights the way. I/We salute Lilly Mam for making math not only understandable but enjoyable. Their impact on our journey through numbers is immeasurable, and for that, we're deeply thankful.

**Dear Sirish Sir**

In a world where global languages like English often take the spotlight, it is a rare and honourable sight to witness someone who dedicates their life to preserving and promoting their native tongue. Our school is fortunate to have our beloved Odia sir, who shows the strength of determination and the significance of embracing our cultural and linguistic heritage. His commitment to our language and culture inspires us all. In a time when many abandon their mother tongue, Odia sir does the opposite. He nurtures our linguistic heritage, instils pride in our roots, and emphasizes the importance of our language. With his guidance, we not only learn the language but also cherish and respect it deeply. Despite some poking fun at his English, Odia sir stays determined. He may not excel in English, but his Odia skills are top-notch. He's just as important in our language as other teachers in their subjects. He believes teaching value isn't about language, but the knowledge and values you share. His dedication and hard work have won our school many awards, showcasing the strength of our native language and making us proud. His lessons go beyond language, shaping us into respectful and compassionate individuals. He goes beyond classroom hours to ensure our success and well-being. His 24/7 guidance reflects his unwavering commitment to our growth and development. Odia sir is a true inspiration, guarding our mother tongue with courage. His dedication and unwavering support make him beloved by every student in our school. We're lucky to have him as our guide, reminding us of the beauty of our mother language, Odia.
